

Advanced Cardiac Life Support (ACLS) Provider Course 2023

Aims to enable healthcare providers to recognize patients who are in cardiac arrest and to provide CPR. Participants will be coached for management of emergency cardiac arrhythmias, immediate care after cardiac arrest, management of stroke and acute coronary syndromes (ACS). This course will make use of video, hands-on practical session and small group discussion to facilitate participants to master the algorithms of advanced cardiac life support for in-hospital settings.

American Heart Association.
